mWAVE signs Elotek Systems, Inc. as its non-exclusive Western States Representative

Windham, Maine, USA, July 6, 2020 - mWave Industries, LLC is pleased to announce that Elotek Systems, Inc. has been named the Company's Western States representative for custom and select commercial antenna product segments. Elotek Systems is a solutions provider committed to the selling and marketing of technical products, which include sensing, measuring, conditioning, telemetering, recording and processing of data. Customers include aerospace, industrial, medical and military markets as well as OEM's, systems integrators, VARs, engineers and end-users.

Elotek will be responsible for selling and marketing mWAVE products in the thirteen western states of Alaska, California, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, Oregon, Texas, Utah, Washington, and Wyoming.

For 35-years, Michael Elovitz, Elotek's President and CEO has successfully grown the company to a recognized industry leader with proven sales results and customer satisfaction from their offices in San Clemente, CA. The company has twelve Outside Sales Engineers, five Business Development Managers and five administrative support staff.

mWAVE's managing director Jim Detert commented that *"adding representation of the caliber of Elotek will help us effectively reach more customers and help solve more real-world problems with mWAVE's innovative antenna solutions. We are delighted to team with Elotek to bring our advanced engineering, flexible manufacturing and testing expertise to a larger market and look forward to the growth that will bring well into the future"*.
